WELCOME AND INVITATION

Ladies and Gentlemen,

On behalf of the Organizing Committee of the 9th Scientific-Technical Conference “*Environmental Engineering, Photogrammetry, Geoinformatics – Modern Technologies and Development Perspectives*” we would like to invite you to Lublin – an academic city with 11 scientific institutions with students from all over the world. The first conference was organized in 1997 and since then it has been taking place in different locations in Ukraine and Poland. The idea of organizing the current edition of conference arose on the base of well-established cooperation of seven universities: from Poland (Lublin, Kraków, Opole), Ukraine (Lviv), Portugal (Beja), Moldova (Chisinau) and Germany (Stuttgart).

We hope that our conference will be an opportunity to continue discussion about the problems concerning water and wastewater treatment, renewable energy sources, waste management, landscape protection, circular economy, water, soil and air protection, as well as photogrammetry, remote sensing, geodesy, cadastre, cartography and geoinformatics. We are convinced there is a need for such a discussion among scientists, engineers, environmentalists, managers, consultants and officials of different sectors.

We believe that the cooperation will be developed in order to realise joint research and implementation projects carried out by interdisciplinary teams from a variety of research units and business environments. Most of all, our key issue is the exchange of thoughts and experiences during the conference towards improvement of state of the environment and of the spatial structure of rural and urban areas.

We hope that the presentation of the most recent scientific accomplishments in the area of environmental engineering, photogrammetry and geoinformatics will be transferred into practise and will contribute not only to the improvement of people’s well-being, but it shall also let us elaborate the effective methods of environmental resources management according to idea of the sustainable development.

CONFERENCE TOPICS

NEW TECHNOLOGIES IN ENVIRONMENTAL ENGINEERING

Water and wastewater treatment
Renewable energy
Waste management
Landscape protection
Water, soil and air protection
Circular economy

NEW TECHNOLOGIES IN PHOTOGRAMMETRY AND GEOINFORMATICS

Photogrammetry
Remote sensing
Geodesy
Cadastre
Cartography
Geoinformatics

COMMITTEES

HONORARY COMMITTEE

Prof. Zygmunt Litwińczuk – Rector of the University of Life Sciences in Lublin, Poland

Prof. Yuriy Bobalo – Rector of the Lviv Polytechnic National University, Ukraine

Prof. Włodzimierz Sady – Rector of the University of Agriculture in Kraków, Poland

Prof. Marek Masnyk – Rector of the Universitas Opoliensis, Poland

Prof. João Paulo Trindade – President of the Polytechnic Institute of Beja, Portugal

Prof. Viorel Bostan – Rector of the Technical University of Moldova, Moldova

Prof. Rainer Franke – Rector of the Hochschule für Technik Stuttgart University of Applied Sciences, Germany

SCIENTIFIC COMMITTEE

Krzysztof Józwiakowski (University of Life Sciences in Lublin, Poland) – **Chair**
